Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk (*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
3. Results for the ACOL measures are available in the detailed report: see "ACOL Measures" in the Table of Contents.
4. Survey results for the province and school authorities were impacted by the changes in the number of students responding to the survey through the introduction of the OurSCHOOL/TTFM (Tell Them From Me) survey in 2014.
5. Aggregated PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. Courses included English Language Arts (Grades 6, 9, 9 KAE); Français (Grades 6, 9); French Language Arts (Grades 6, 9); Mathematics (6, 9, 9 KAE); Science (Grades 6, 9,9 KAE); and Social Studies (Grades 6, 9 , 9 KAE).
6. Participation in Provincial Achievement Tests was impacted by the flooding in June 2013 (Grade 9 only) and by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
7. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts $30-1$, English Language Arts $30-2$; French Language Arts $30-1$; Français $30-1$; Mathematics $30-1$; Mathematics $30-2$; Chemistry 30 , Physics 30; Biology 30; Science 30; Social Studies 30-1; and Social Studies 30-2.
8. Caution should be used when interpreting evaluations and results over time for Mathematics 30-1/30-2, as equating was not in place until the 2016/17 school year. Alberta Education does not comment on province wide trends until it has five years of equated examination data.
9. Participation in Diploma Examinations was impacted by the flooding in June 2013 and by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events
10. Weighting of school-awarded marks in diploma courses increased from $50 \%$ to $70 \%$ in the $2015 / 2016$ school year. Caution should be used when interpreting trends over time.
11. Due to the change from previous data source systems to Provincial Approach to Student Information (PASI), Rutherford Scholarship Eligibility Rate results prior to 2015 are not available.

## Measure Evaluation Reference

## Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5 th, 25 th, 75 th and 95 th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure

| Measure | Very Low | Low | Intermediate | High | Very High |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Safe and Caring | $0.00-77.62$ | $77.62-81.05$ | $81.05-84.50$ | $84.50-88.03$ | $88.03-100.00$ |
| Program of Studies | $0.00-66.31$ | $66.31-72.65$ | $72.65-78.43$ | $78.43-81.59$ | $81.59-100.00$ |
| Education Quality | $0.00-80.94$ | $80.94-84.23$ | $84.23-87.23$ | $87.23-89.60$ | $89.60-100.00$ |
| Drop Out Rate | $100.00-9.40$ | $9.40-6.90$ | $6.90-4.27$ | $4.27-2.79$ | $2.79-0.00$ |

Notes:

1) For all measures except Drop Out Rate: The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100\%.
2) Drop Out Rate measure: As "Drop Out Rate" is inverse to most measures (i.e. lower values are "better"), the range of values at each evaluation level is interpreted as greater than the lower value and less than or equal to the higher value. For the Very High evaluation level, values range from $0 \%$ to less than or equal to the higher value.

## Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.
The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

| Evaluation Category | Chi-Square Range |
| :--- | :--- |
| Declined Significantly | $3.84+$ (current < previous 3-year average) |
| Declined | $1.00-3.83$ (current < previous 3-year average) |
| Maintained | less than 1.00 |
| Improved | $1.00-3.83$ (current > previous 3-year average) |
| Improved Significantly | $3.84+$ (current > previous 3-year average) |

## Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

|  | Achievement |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Improvement | Very High | High | Intermediate | Low | Very Low |
| Improved Significantly | Excellent | Good | Good | Good | Acceptable |
| Improved | Excellent | Good | Good | Acceptable | Issue |
| Maintained | Excellent | Good | Acceptable | Issue | Concern |
| Declined | Good | Acceptable | Issue | Issue | Concern |
| Declined Significantly | Acceptable | Issue | Issue | Concern | Concern |

## Category Evaluation

The category evaluation is an average of the Overall Evaluation of the measures that make up the category. For the purpose of the calculation, consider an Overall Evaluation of Excellent to be 2, Good to be 1, Acceptable to be 0, Issue to be -1, and Concern to be -2 . The simple average (mean) of these values rounded to the nearest integer produces the Category Evaluation value. This is converted back to a colour using the same scale above (e.g. 2=Excellent, $1=$ Good, $0=$ Intermediate, $-1=$ Issue, $-2=$ Concern)

Outcome One: Alberta's students are successful

Comment on Results
(an assessment of progress toward achieving the target)

- We met our target for students achieving the Acceptable PAT standard; we fell short of our target for Excellence
- The low number of students we have writing PATs makes individual performance heavily weighted statistically.

## Strategies

- Language arts in all grades follows the PRSD Reading Assessment Framework
- New focus in Grades 1-9 across all subjects on student acquisition of concept-specific vocabulary; the focus includes a year-long teacher PD focus on effective instruction strategies for student understanding and retention of vocabulary in all subjects
- Address students with special needs by creating and implementing behaviour plans, learning strategies, and targeted speech and language assistance
- Teacher collaboration periods scheduled on a weekly basis
- Educational Assistants scheduled into classrooms to support student learning
- PAT and SLA results analysis
- Students will be taught structured problem solving strategies during math and science.
- Increase scheduled time for partner and guided reading.
- Focus instruction by identifying Essential Outcomes and Common Assessments in numeracy and literacy
- Strands, topics, themes arranged school-wide to better suit multi-grade instruction
- Daily intervention period scheduled for Tier 2 and Tier 3 supports (as per Response to Intervention)
- Students in Gr. 2-6 will use www.reflexmath.com at least three times a week to build basic math fact fluency (so as to aid in performance throughout the math curriculum)
- Gr. 6 LA removed from Gr. 6-9 class, added to Gr. 4-5 class, to better distribute instructional load
- Use blended learning models in core subjects, Gr. 4-9, to aid multi-grade instruction and increase student access to enrichment and extension learning opportunities/activities
- Ensure equitable student access to devices, other technologies, and to assistive technologies to support student learning.
- Keyboarding will continue to be taught as an essential skill in Grades 1-8, with Grades 6-9 receiving keyboarding lessons.

- Staff regularly use the term 'citizenship' and 'citizen' to describe how students' behaviour/actions affect the school environment as a whole
- Posts on social media celebrating students' acts of citizenship
- Continue to educate, engage, and monitor students on the principles of responsible digital citizenship.
- Establish community and post-secondary partnerships to assist with global digital responsibilities.

## Comment on Results

(an assessment of progress toward achieving the target)

- We do not have a high school program.

## Strategies

- Continue to provide daily intervention blocks for Tier 2 and 3 supports
- Participate in FNMI student writing competitions/celebrations
- Inclusion and promotion of cultural activities (FNMI Hand Games, Aboriginal Day Celebration).
- Include FNMI literature in learning activities/units of study

## Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk (*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
3. Aggregated PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. Courses included: English Language Arts (Grades 6, 9, 9 KAE); Français (Grades 6, 9); French Language Arts (Grades 6, 9); Mathematics (6, 9, 9 KAE); Science (Grades 6, 9, 9 KAE); and Social Studies (Grades 6, 9, 9 KAE).
4. Participation in Provincial Achievement Tests was impacted by the flooding in June 2013 (Grade 9 only) and by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
5. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts 30-1; English Language Arts 30-2; French Language Arts 30-1; Français 30-1; Mathematics 30-1; Mathematics 30-2; Chemistry 30; Physics 30; Biology 30; Science 30; Social Studies 30-1; and Social Studies 30-2.
6. Caution should be used when interpreting evaluations and results over time for Mathematics $30-1 / 30-2$, as equating was not in place until the 2016/17 school year. Alberta Education does not comment on province wide trends until it has five years of equated examination data.
7. Participation in Diploma Examinations was impacted by the flooding in June 2013 and by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
8. Weighting of school-awarded marks in diploma courses increased from $50 \%$ to $70 \%$ in the $2015 / 2016$ school year. Caution should be used when interpreting trends over time.

## Outcome Two: The systemic education achievement gap between First Nations, Métis and Inuit students and all other students is eliminated (continued)

## Comment on Results

(an assessment of progress toward achieving the target)

## Strategies

## Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk (*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available
3. Diploma Examination Participation, High School Completion and High school to Post-secondary Transition rates are based upon a cohort of grade 10 students who are tracked over time
4. Weighting of school-awarded marks in diploma courses increased from $50 \%$ to $70 \%$ in the $2015 / 2016$ school year. Caution should be used when interpreting trends over time.
5. Due to the change from previous data source systems to Provincial Approach to Student Information (PASI), Rutherford Scholarship Eligibility Rate results prior to 2015 are not available
6. Student demographic data used when calculating Student Outcome Measures and Provincial Achievement Tests results was updated in October 2016. This impacted results based on enrolment (e.g., self-identified First Nations, Metis and Inuit), exception (e.g., learning disability) and grant program codes (e.g., English as Second Language students) reported in previous years

## Outcome Three: Alberta's education system is inclusive

| Performance Measure | Results (in percentages) |  |  |  |  | $\begin{array}{\|c\|} \hline \text { Target } \\ \hline 2017 \\ \hline \end{array}$ | Evaluation |  |  | Targets |  |  |

| Percentage of teacher, parent and student agreement that: students are safe at school, are learning the importance of caring for others, are learning respect for others and are treated fairly in school. | 81.1 | 96.7 | 96.7 | 98.3 | 92.5 | 99 | Very High | Maintained | Excellent | 100 | 100 | 100 |

## Comment on Results

(an assessment of progress toward achieving the target)

- We did not meet our target last year, primarily due to student/parent impressions on student safety to and from school. The addition of the first strategy below seeks to address this.

## Strategies

- Principal regularly checks in with bus drivers about student conduct on busses; principal responds accordingly
- Our full-time office manager receives and guides visitors into the school
- Health and safety topics (as per the school's Safety Plan) are incorporated into all sitebased PD days
- Weekly assemblies emphasize and celebrate key messages about caring and safety.
- Utilize social media (Facebook, Class Dojo, and Dixonville School Website), and newsletters to communicate messages from the school
- Provide a nutritional breakfast on a daily basis; hot lunches provided periodically
- Partnering with community and provincial services to provide DARE, dental health, hygiene, and other healthy practices
- Train students in emergency and evacuation protocols
- Majority of staff members are trained in Emergency First Aid and CPR/AED.
- Some members are certified in Non Violent Crisis Intervention.
- Some staff are trained in VTRA - Violence Threat Risk Assessment

Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk (*).
2. Survey results for the province and school authorities were impacted by the changes in the number of students responding to the survey through the introduction of the OurSCHOOL/TTFM (Tell Them From Me) survey in 2014.

## Outcome Four: Alberta has excellent teachers, and school and school authority leaders

| Performance Measure | Results (in percentages) |  |  |  |  | $\begin{array}{\|c\|} \hline \text { Target } \\ \hline 2017 \\ \hline \end{array}$ | Evaluation |  |  | Targets |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2013 | 2014 | 2015 | 2016 | 2017 |  | Achievement | Improvement | Overall | 2018 | 2019 | 2020 |
| Percentage of teachers, parents and students satisfied with the opportunity for students to receive a broad program of studies including fine arts, career, technology, and health and physical education. | 79.2 | 81.4 | 84.8 | 75.8 | 90.2 | 86 | Very High | Maintained | Excellent | 92 | 94 | 96 |

## Comment on Results

(an assessment of progress toward achieving the target)

- This was a targeted area of growth for the school last year, and we are pleased with the significant growth; as such, we will continue with last year's strategies

## Strategies

- A new rotation of options classes (Gr. 4-9) has been implemented to increase students' choices and opportunities, including: foods lab, CO2 dragster making/racing, hovercraft making, second languages (French, Spanish, or German)
- The music (band) program continues
- iPads continue to be used primarily for K-3 numeracy and literacy programming
- Robotics option will continue
- Archery program will continue
- Continue to explore opportunities for DX students to join other larger schools' athletic teams
- A music (recorder) extracurricular program will be started for Gr. 2-3 students
- Student-centred learning is supported through a blended learning model that includes variations of time, place, path, or pace.
- Create and participate in learning events and competitions - i.e. robotics tournaments, options courses such as CO2 dragsters - to inspire students to pursue further studies and careers in the fields of science, technology, and engineering.

## Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk (*).
2. Survey results for the province and school authorities were impacted by the changes in the number of students responding to the survey through the introduction of the OurSCHOOL/TTFM (Tell Them From Me) survey in 2014.

## Outcome Five: Alberta's education system is well governed and managed

| Performance Measure | Results (in percentages) |  |  |  |  | $\begin{array}{\|c\|} \hline \text { Target } \\ \hline 2017 \\ \hline \end{array}$ | Evaluation |  |  | Targets |  |  |

| Percentage of teachers and parents satisfied with parental involvement in decisions about their child's education. | n/a | 96.7 | 90.0 | n/a | 100.0 | 92 | Very High | Maintained | Excellent | 100 | 100 | 100 |
| Percentage of teachers, parents and students satisfied with the overall quality of basic education. | 87.0 | 96.5 | 100.0 | 99.3 | 95.8 | 100 | Very High | Maintained | Excellent | 100 | 100 | 100 |

## Comment on Results

(an assessment of progress toward achieving the target)

- We are pleased with these results.
- We will continue to focus on collaboration and parent/guardian involvement in the school.

## Strategies

- Continue to welcome and incorporate parents' and students' input
- Active and supportive School Council meets on the second Tuesday of each month
- Continue to foster a positive and enjoyable culture through engaging school-wide events (such as this year's Spelling Bee).
- Effective communication through school newsletters, social media, the school website, and Class Dojo
- Recognize the school's achievements in the Accountability Surveys with a bulletin board celebrating the results
- Actively promote school events by submitting coverage (i.e. articles and photos) celebrating school events and student achievement
- Recognition and celebration of parents, guardians, and volunteers through Parents Matter events (chili dinner) and the Volunteer Tea (April)
- Enhance existing community partnerships and seek new partnerships (i.e. delivery of options courses)
- Continue to partner with business, industry, local governments, and community service programs to enhance student learning opportunities by sharing information about career opportunities, education, training, and job preparation (i.e. fieldtrips to DMI, local airlines, etc.)

## Measure Evaluation Reference - Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th, and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure

Notes:

1. The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to $100 \%$.
2. Participation in Provincial Achievement Tests was impacted by the flooding in June 2013 (Grade 9 only) and by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
3. Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in tests.

## Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

| Evaluation Category | Chi-Square Range |
| :--- | :--- |
| Declined Significantly | $3.84+$ (current < previous 3-year average) |
| Declined | $1.00-3.83$ (current < previous 3-year average) |
| Maintained | less than 1.00 |
| Improved | $1.00-3.83$ (current > previous 3-year average) |
| Improved Significantly | $3.84+$ (current > previous 3-year average) |

## Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.
